

AMENDMENTS TO THE DRAWINGS

One drawing sheet containing Figure 2 is provided to replace the original drawing sheet containing Figure 2. In Figure 2, the previously omitted connection between the anode 3 and the switch 18 has been added.

Attachment: Replacement Sheet
Annotated Sheet Showing Changes

REMARKS

Applicants hereby amend the Drawings, in order to further the prosecution of the present application and Applicants' business interests. The amendment does not include new matter. In particular, Applicants have added the previously omitted connection between the anode 3 and the switch 18 to Figure 2. Support for this amendment can be found for instance in the description of the application as filed, which teaches that the "anode and cathode are connected to a DC power supply 16 or a power-consuming device 17 with a switch 18 between 16 and 17" (Specification, page 8, lines 1 and 2). Even so, should the Examiner believe a telephone interview would aid in the prosecution of this application, Applicants encourage the Examiner to call the undersigned collect
